Dawid Bobyla

Senior / Lead Game Programmer (C++ / C#)

Summary

Game developer with 10+ years of commercial experience across PC, VR, and mobile platforms, working with Unreal Engine and Unity (C#). Recently worked on Storage Hunter Simulator (Unreal Engine 5), released under astragon Entertainment, with 300k+ copies sold in Early Access and 80%+ positive reviews on Steam. Experienced in designing and implementing UI systems, gameplay systems, and multiplayer features. Comfortable working independently and taking ownership of technical decisions.

Work History

2023-09 - 2026-03

Lead Unreal Engine Developer

Raccoons Studio SA

Project: Storage Hunter Simulator (Unreal Engine 5)
Published: November 27, 2025 (Publisher: astragon Entertainment)
